

YOUR FAMILY'S HEALTH & SAFETY DESERVE

***Axtron is the
UAE's #1 Brand in
Water Purifiers***

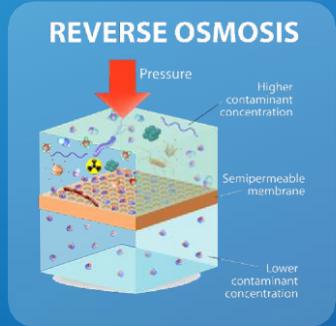

Think pure. Drink pure with Axtron Box RO (Model: CB Box RO with alkaline)

Reverse Osmosis (RO) Technology

- Removes metallic salts, chemicals and impurities
- Built using premium US membrane technology

Alkaline Technology

- Retains essential minerals your body needs
- Powered by advanced South Korean alkaline technology for healthier Hydration

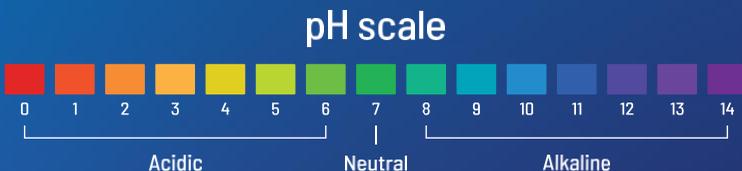

Taste pure with the Alkaline Filters in Axtron Box RO

Most water purifiers are built with Reverse Osmosis (RO) systems, which effectively remove microorganisms and harmful substances such as lead, arsenic, and other toxic metals. They are also cost-effective and easy to operate. However, RO treatment also removes beneficial minerals, resulting in slightly acidic water.

An Alkaline Filter adds these essential minerals, transforming acidic demineralized water into pH-balanced spring water right at your own home.

The Final Result? Healthier, tastier purified water similar to the miracle spring waters of the Zamzam Well, Lourdes and Tibet.

7 Reasons to Switch to Axtron Box RO (with alkaline filter)

Our advanced purification process consists of 7 stages :

Stage 1

5 mic Pre-Filter

Stage 2

Activated Carbon
Filter

Stage 3

Activated Carbon
Block Filter

Stage 4

0.0001 mic TFC
RO Membrane

Stage 5

Post Carbon Filter

Stage 6

Anti-Oxidant
Alkaline Filter

Stage 7

Anti-Bacterial
Filter

Live pure with Axtron Box RO

Start enjoying these healthy benefits with each glass of alkaline water:

- Hydrates faster than regular water
